

Syrian hamster

Hamsters belong to the rodent subfamily cricetinae. They are well-known house pets and also used as experimental animals. In the wild, they live in nest holes in dry regions from Europe to Asia. Wild hamsters are few in number, and are considered endangered. Nocturnal animals, they have a thick fur coat and primarily eat fruits and nuts. This paper-craft hamster is fashioned after the Syrian hamster.

*Assembly instructions on pages 1 and 2, and pattern on page 3.

★ Assembly Instructions

- 1) Carefully cut out the parts.
- 2) Fold along the dotted lines, making mountain or valley folds as indicated.
- 3) Follow the order indicated in the instructional diagrams, and attach the parts to assemble.
(Read the Explanation of Symbols for more information.)
- 4) Your paper craft model is finished!

★ Tools

Scissors, glue (We recommend craft glue.)

★ Caution

Keep scissors and glue away from small children.
Be careful not to cut your fingers when using scissors.
Fold the folding lines before gluing.

★ Explanation of Symbols

————— Cut line

- - - - - Mountain fold

- - - - - Valley fold
