## CREATIVE PARK

<http://www.canon.com/c-park/>

View of completed model

\* Turn the lever below the frame and the wheels of the unicycles turn and songbirds take wing.

### ■ Assembly Instructions : Nine A4 sheets (No. 1 to No. 9)

\* Build the model by carefully reading the Assembly Instructions , in the parts sheet page order.

\*Hint: Trace along the folds with a ruler and an exhausted pen (no ink) to get a sharper, easier fold.

### Assembly Instructions

**Mountain fold(dotted line)**  
Make a mountain fold.

**Valley fold(dashed and dotted line)**  
Make a valley fold.

**Scissors line(solid line)**  
Cut along the line.

**Cut in line(solid line)**  
Cut along the line.

**Glue**  
The glue spot(colored dot) shows where to apply the glue.

**Glue spot(Red dot)**  
Glue parts with the same number together.

**Glue spot(Green dot)**  
Glue within the same part.

**Glue spot(Blue dot)**  
Glue to the rear of the other part.

#### Tools and materials

Scissors, set square, glue(We recommend stick glue), pencil, used ballpoint pen, toothpicks, tweezers, (useful for handling small parts)

#### Assembly tip

Before gluing, crease the paper along mountain fold and valley fold lines and make sure rounded sections are nice and stiff.

#### Caution

Glue, scissors and other tools may be dangerous to young children so be sure to keep them out of the reach of young children.

Before starting assembly : Writing the number of each section on its back side before cutting out the sections is highly recommended.  
(\* This way, you can be sure which section is which even after cutting out the sections.)

→ Indicates where sections should be glued together.  
→ Indicates where to insert sections.  
Do not glue the sections together.  
→ Indicates the order for assembling parts.

Round bar : Use to give parts a curved surface.

Tweezers : Useful in working with fine parts.

Be sure to build this model carefully.

Glue the entire reverse sides of part 1 and part 4 to each other, as shown in this illustration. Take care in positioning and direction of the parts when gluing them.

**Caution :** Spread the glue in a thin layer, to prevent these parts from warping after you glue them together.

Glue part 2 to the remaining uncovered area of part 4.

Glue the rear sides of part 2 and part 3 to each other, lining these parts up.

2

**Caution :** Spread glue in a thin, even layer before gluing surfaces together.

**Caution :** Confirm positioning before spreading glue, then glue parts together.

Parts 9, 10, 15, and 16

3

Make two sets.

Glue part 26 to the reverse side of parts 23 to 25.

Attach wheels (23 to 25) to axels (18), then attach part 27 to each wheel.

Turn the lever and confirm that all three wheels turn.

**Caution :** Glue frame parts 47 to 51 first.  
Then glue both side frames,  
followed by the upper frame.

Take care that the diorama does  
not warp.

Finished!
