Glue here

△ **White triangle**  
Glue the back

**You will need**

scissors, paste, a used ballpoint pen (tracing along the fold lines makes them easier to fold)

**Caution:** Glue, scissors, and other tools may be dangerous to young children so be sure to keep them out of the reach of young children.

**1** Cut out the parts and fold them along the fold lines on each.

**2** Fold the cards in half, and cut each one out according to its shape. For petals A, B and C, and leaf C, align the shapes of each part and glue the fronts and backs together.

**3** For the stem, attach the front and back of the stem parts and the upper glue tabs together. Next, attach leaf C from the back and leaves A and B from the front, in order as shown in the diagram, aligning with the shape of leaf C.

**4** Attach petals B and A (in this order) to the front of the upper part of the stem. Attach petal C from the back, and you're done! Put the insect cards with your message on them inside the flower, and send it on its way!
