

Pegasus is a mythical flying horse with wings on his back, and a legendary part of Greek mythology.

Pegasus was the offspring of Poseidon and Medusa. After being helped by Pegasus to accomplish many noble deeds beginning with slaying the beast Chimera, the mortal Bellerophon attempted to ride on Pegasus's back into the home of the gods. This outraged Zeus, and he sent down a gadfly to sting Pegasus on the nose, causing Bellerophon to fall all the way to Earth and die. It is said that Pegasus, having realized the error of their ways, ascended to the heavens and became a constellation (The Pegasus Constellation).

Pegasus was made the servant of Zeus, the king of the gods, which is considered a heraldic symbol of refinement and prestige.

■ Parts List (Pattern): Seventeen A4 sheets (No.1 to No.17)

■ Assembly Instructions: Four A4 sheets (No.1 to No.4)

*Read the Assembly Instructions carefully in page order referring to the page numbers on the parts list.

*It is easy to get pieces mixed up if you cut them all out at once, so just cut the pieces as you need them.

Instructions

Mountain fold line
(dotted line)
● Make a mountain fold.

—————
Cut line
(solid line)
● Cut out.

Valley fold line
(dotted and dash line)
● Make a valley fold.

—————
Slot line
(solid line)
● Cut a slot.

- Use a set square or ruler and a dried up pen to score along the dotted lines, and fold along them to make creases.
- Work curves into the pieces using a metal rod before beginning assembly. For small pieces, add curves before cutting them out.
- Use scissors to cut along the solid line.
- Use a spatula for the small glue tabs.
- The pale-colored numbers on the glue tabs indicate the number of the part to be attached there.

Tools and Materials

Scissors, set square, glue (such as woodwork glue), metal rod, spatula, a used pen, toothpicks, tweezers (useful for handling small parts).

Assembly tip

Before gluing, crease the paper along mountain fold and valley fold lines and make sure rounded sections are nice and stiff.

Caution

This craft requires the use of glue, scissors, tweezers, and other tools which may be dangerous to young children. Please keep them out of reach of children.

Assemble parts from pages 2 to 4 of the pattern sheets.

Assemble parts from pages 7 and 8 of the pattern sheets.

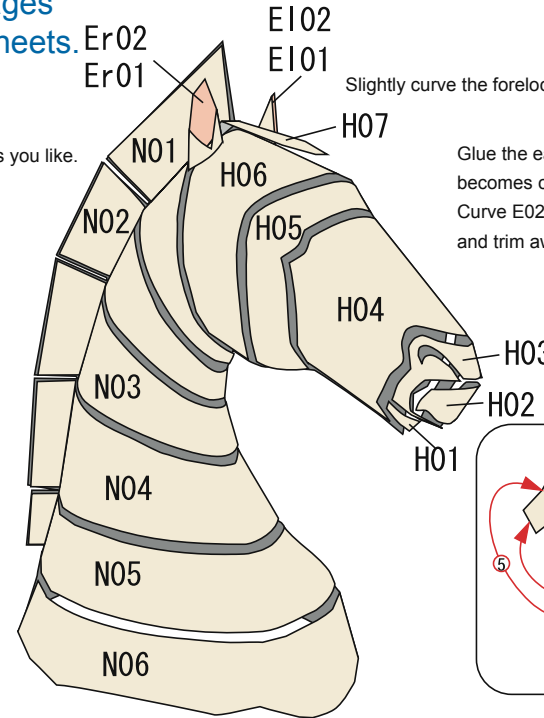

Glue the tail to the body last.

Cut out the tip of the tail along the jagged line, but do not glue it.

After gluing the mane together, cut it out along the jagged line and add curves to whichever parts you like.

Slightly curve the forelock H07 downwards.

Glue the ear part E01 so that it becomes cylindrical. Curve E02 and glue it inside E01, and trim away any protruding parts.

If you prefer to skip gluing E02 inside, you can get a similar effect by coloring the rear of E01 pale pink before gluing it.

Glue all the parts so that they become cylindrical, and then glue them to each other, working in order from the lowest number.

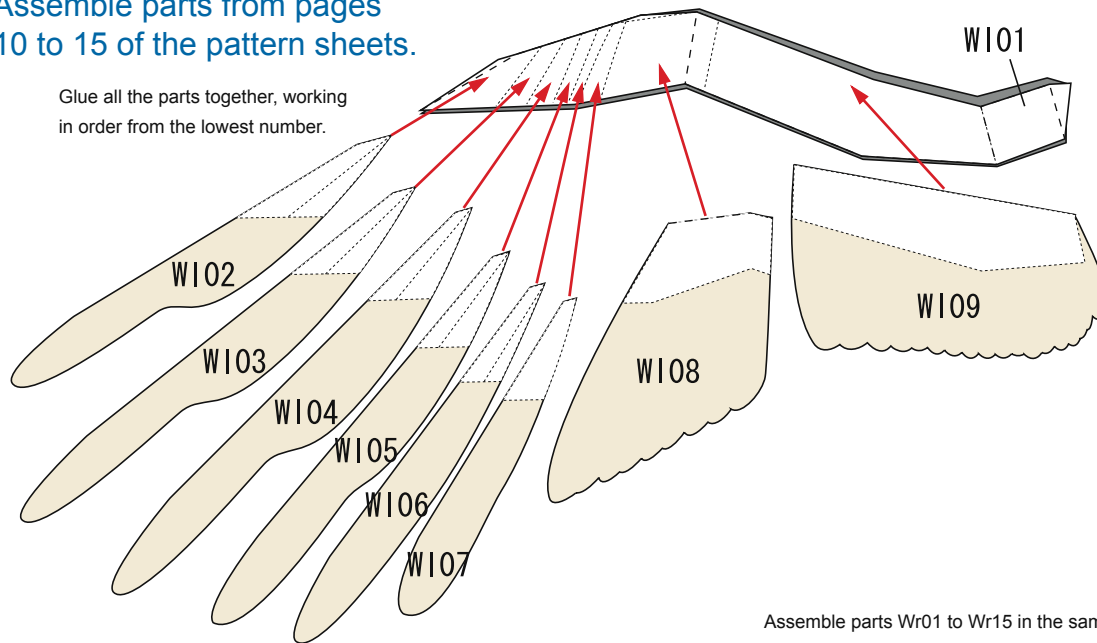

Glue the bottoms of the hooves last.

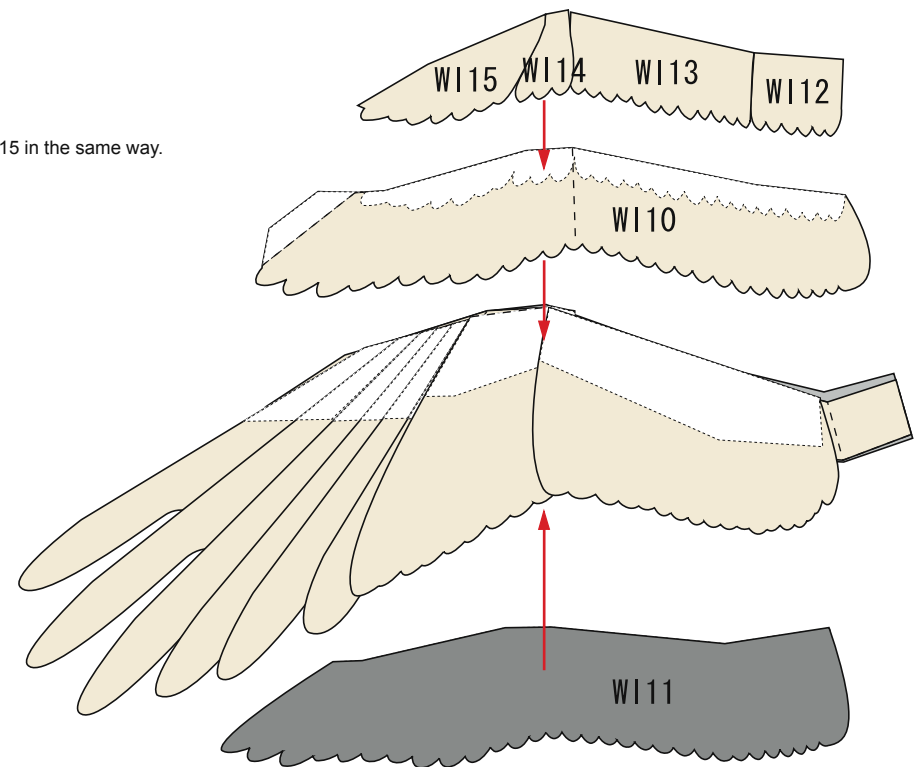

Assemble parts from pages 6 and 9 of the pattern sheets.

Assemble parts from pages 10 to 15 of the pattern sheets.

Glue all the parts together, working in order from the lowest number.

Assemble parts Wr01 to Wr15 in the same way.

Once the feathers have been glued to W101, sandwich it between W111 and W112 and glue them together. Then, glue W113 to W116 on top of that.

Assemble parts from pages 5 and 6 of the pattern sheets.
