

**Assembly Instructions**

**Tools and materials**

**Caution**

Mountain fold  
\*Make a mountain fold.

Valley fold  
\*Make a valley fold.

Scissors, set square, glue (We recommend stick glue), pencil, used ballpoint pen, toothpicks, tweezers (useful for handling small parts)

Glue, scissors, and other tools may be dangerous to young children so be sure to keep them out of the reach of young children.

**Handy Hint**

Using a dried-up pen (no ink) and a ruler to score along the fold lines will result in sharper, neater folds.

**● Overall Process**

**1 Crease**

Fold along the fold lines on each part, to make creases.  
\*Try using a dried-up pen or other pointed object to score along the lines.

**2 Cut**

Cut out each part.  
\*If you begin with the larger parts and then cut the detailed areas, it will be easier to cut them without tearing the paper.

**3 Fold**

Make mountain folds and valley folds along the fold lines you creased in step 1.

**4 Glue and assemble**

**4-1** Fold back the trapezoid-shaped parts adjacent to glue tabs 2', 3', 4', 6' and 7', and glue them in place.

**4-2** Join base A and base B together lengthwise at glue tab 1.

\*Make sure base A and base B are both face up.

**4-5** Glue tree A and tree B together by aligning the shapes of glue spots 5.

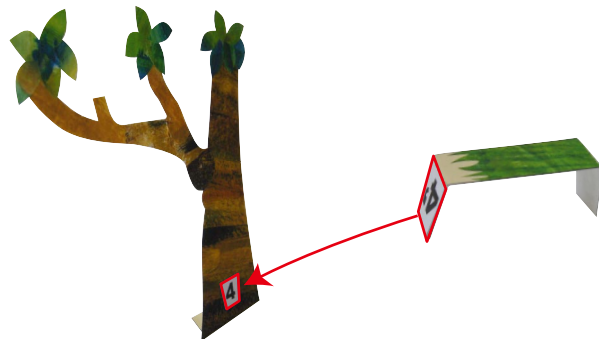

**4-3** Attach glue tabs 2' and 3' on parts A and B to glue spots 2 and 3 on base A.

**4-6** Attach glue tab 6' on tree A to glue spot 6 on base B.

**4-4** Attach glue tab 4' on part C to glue spot 4 on tree A.

**4-7** Attach glue tab 7' on bear A to glue spot 7 on base B.

**4-8** Close over the base and attach glue tabs 8' on parts A and B to the back of the tree.

**4-9** Close over the base and attach glue tabs 9' on parts C to the back of bear A.

**4-10** Glue bear B to the swing.

\*If you tuck her hands behind the swing and her body in front, she will look like she's really sitting on the swing.

**4-11** Hook the loops on the swing over the tree branch.

How the tree branch and swing should look

**4-12** Attach the front and back covers.

\*Making sure the parts face the right way, and glue the front and back covers to the base.

Wait for the glue to dry, open the card 90° and check that the bears pop out. You're done!
