

1 Cut out the parts and fold them along the fold lines on each.

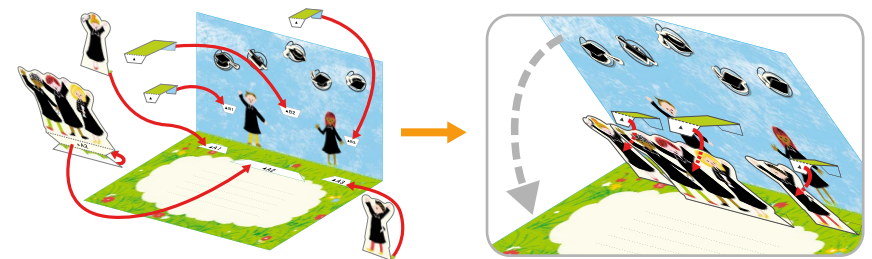

2 Glue parts A to E to the base. Attach the mortarboards to the glue tabs on parts A to E.

☆ Attach the mortarboards at whatever angles you like.
☆ After attaching the mortarboards, pull parts A to E into place to create a 3 dimensional effect.

3 Fold the glue tabs on A1 to A3 and B1 to B3, and after gluing them together at the reverse sides, glue them to the base. For the other glue tab on B1 to B3, glue them to the reverse side of A1 to A3 while closing the card.

4 Glue the front and back covers to the reverse side of the base, and you're done!

Assembly Instructions

..... Mountain fold (dotted line) *Make a mountain fold.	—— Scissors line (solid line) *Cut along the line.
- · - · - Valley fold (dashed and dotted line) *Make a valley fold.	▲ Black triangle *Glue here.
—— Cut in line (solid line) *Make a cut.	

You will need
scissors, paste, a used ballpoint pen (tracing along the fold lines makes them easier to fold)

Caution: Glue, scissors, and other tools may be dangerous to young children so be sure to keep them out of the reach of young children.
