# TR:UNDERWORLD WETSUIT

In the first Tomb Raider, Lara wore her classic adventurer's outfit during the entire game. In Tomb Raider II, she donned a warm bomber jacket during her adventures in the icy colds of the Himalayas (still the same old shorts, but we're not complaining...) and a grey with blue wetsuit during the underwater levels (who could forget the first time she changed outfits...)

Lara's TR2 SOLA wetsuit is now famous and judging from the reactions, her new black with yellow stripes Underworld wetsuit might go the same way... ;o)
