View of completed model

\* Push and pull the lever on the right. The barrels begin rolling back and forth and merry acrobat of clowns starts.

### ■ Assembly Instructions : Twelve A4 sheets (No. 1 to No. 12)

\* Build the model by carefully reading the Assembly Instructions , in the parts sheet page order.

\*Hint: Trace along the folds with a ruler and an exhausted pen (no ink) to get a sharper, easier fold.

### Assembly Instructions

**Mountain fold(dotted line)**  
Make a mountain fold.

**Valley fold(dashed and dotted line)**  
Make a valley fold.

**Scissors line(solid line)**  
Cut along the line.

**Cut in line(solid line)**  
Cut along the line.

**Glue**  
The glue spot(colored dot) shows where to apply the glue.

**Glue spot(Red dot)**  
Glue parts with the same number together.

**Glue spot(Green dot)**  
Glue within the same part.

**Glue spot(Blue dot)**  
Glue to the rear of the other part.

#### Tools and materials

Scissors, set square, glue(We recommend stick glue), pencil, used ballpoint pen, toothpicks, tweezers, (useful for handling small parts)

#### Assembly tip

Before gluing, crease the paper along mountain fold and valley fold lines and make sure rounded sections are nice and stiff.

#### Caution

Glue, scissors and other tools may be dangerous to young children so be sure to keep them out of the reach of young children.

Before starting assembly : Writing the number of each section on its back side before cutting out the sections is highly recommended.  
(\* This way, you can be sure which section is which even after cutting out the sections.)

→ Indicates where sections should be glued together.  
→ Indicates where to insert sections.  
Do not glue the sections together.  
→ Indicates the order for assembling parts.

Round bar : Use to give parts a curved surface.

Tweezers : Useful in working with fine parts.

Be sure to build this model carefully.

**Caution :** Spread glue in a thin, even layer before gluing surfaces together.

Make two sets.

2

Prepare part 8 in the same way.

Firmly form the shape as you glue to prevent distortion.

Parts 5 to 9

**Caution :** Make sure the direction of the barrel is correct.

Parts 11 and 12

Parts 5 to 9

**Caution :**

Make sure the direction of Part 2 is correct before you glue it.

19

The hexagonal pasting margin comes to the front.

Turn the entire body over and insert the part 1.

\*It will be easier to work if you use 2 empty boxes on the left and right as supports.
