© 2011 HARUKI NAKAMURA / KAMIKARA

Cut out the parts, and then carefully follow the assembly instructions.

Tools & Materials

- Scissors, utility knife
- Glue stick and wood glue

- Ruler or set square
- Poncil
- I GIIGII
- Object with pointed tip (dried-up ballpoint pen, stencil pen, etc.)
- Toothpicks
- Tweezers

Tips for Assembly

Keep track of which part is which by writing each part's number in pencil on the back of the part.

 Use a dried-up ballpoint pen, stencil pen, or other pointed object and a ruler to score along the fold lines. This will create sharper, neater folds.

- Before gluing, fold and crease along the fold lines and add curves where needed.
- Use a toothpick when applying glue. Thinly applied glue gives a neater finish.
- Use tweezers when picking up and attaching small parts.

Caution

- This paper craft uses scissors, utility knives, glue, and other items and materials which may be dangerous to children. Keep these items and materials out of reach of children while you work.
- Take care not to injure yourself when using scissors, utility knives, and other sharp or pointed objects.

Part numbers

Mountain fold line (dotted line)

Valley fold line (dotted & dashed line)

Cut line (solid line)

Partial cut line (solid red line)

Cut-out area

Apply glue (red arrow)

Insert (blue arrow) (Do not apply glue)

Add curves

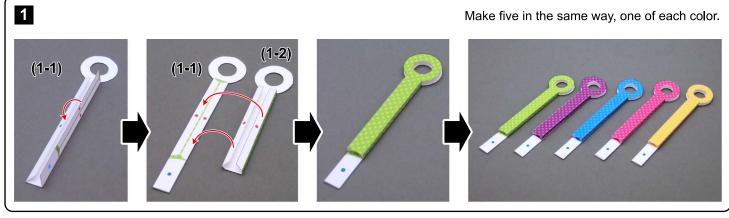

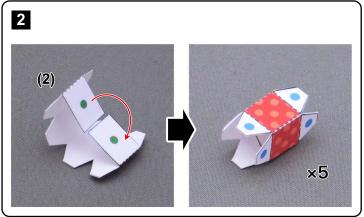

Dots on glue tabs show where and how to glue parts together.

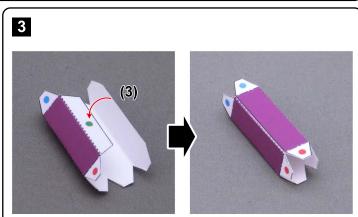

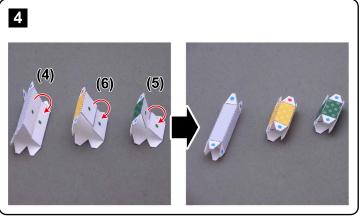

- Glue tab (green dot)
 Glue one place to another on
 the same part
- Glue tab (blue dot)
 Glue one part to the reverse
 of another part
- Glue tab (yellow dot)
 Glue the reverse of two parts together

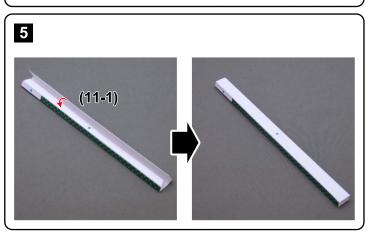

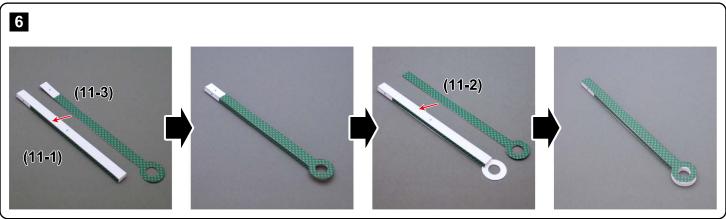

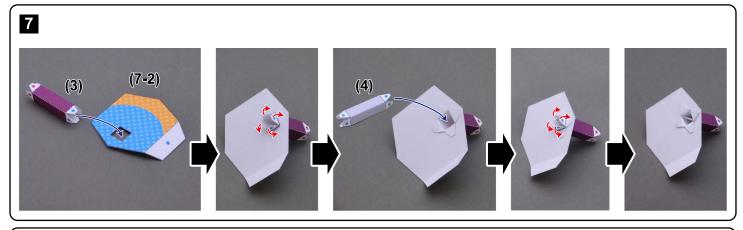

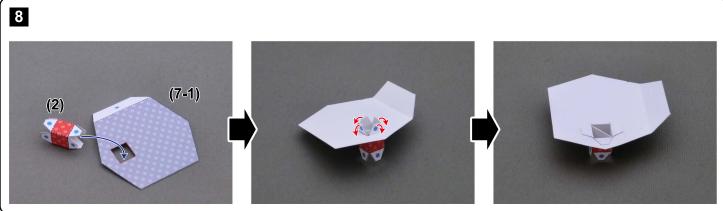

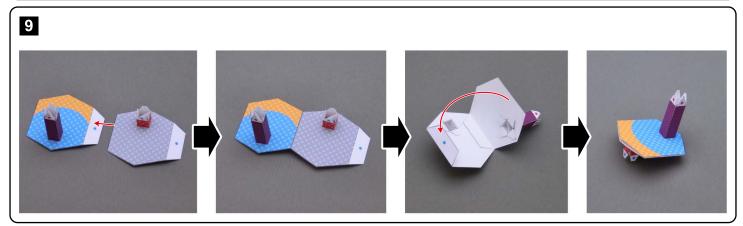

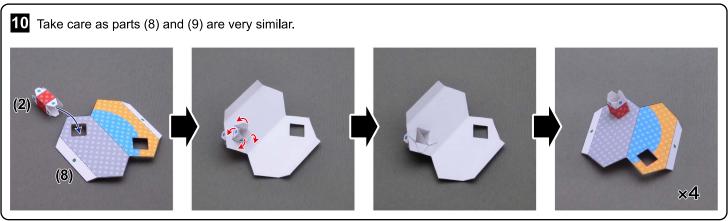

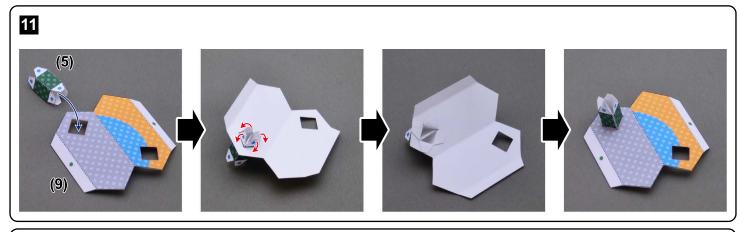

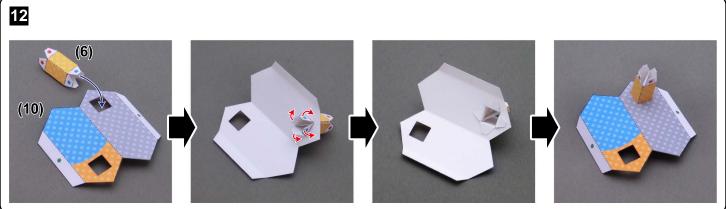

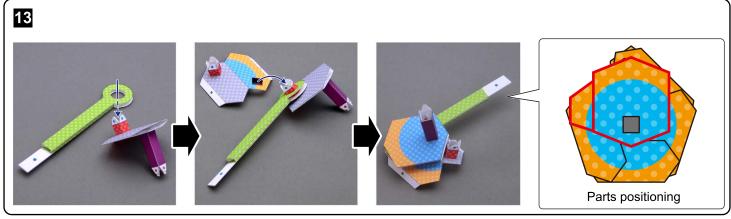

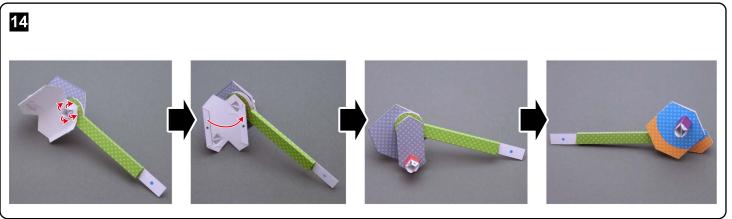

Canon

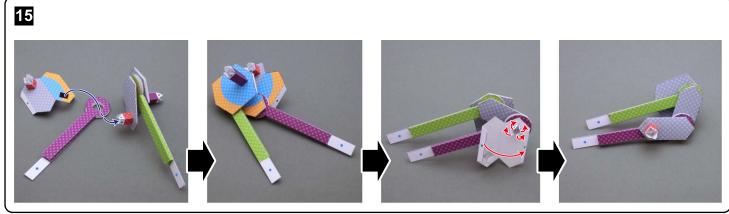

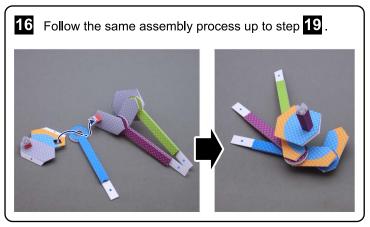

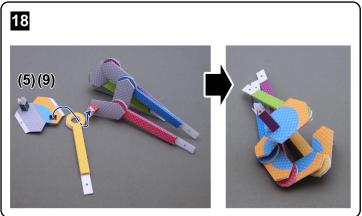

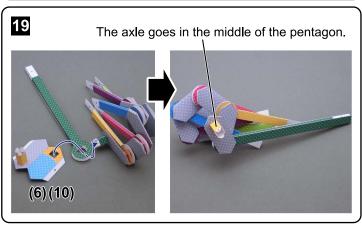

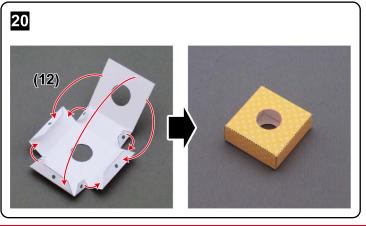

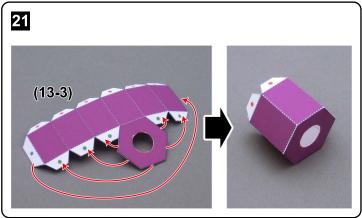

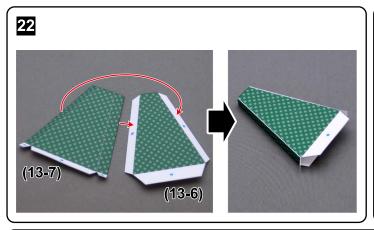

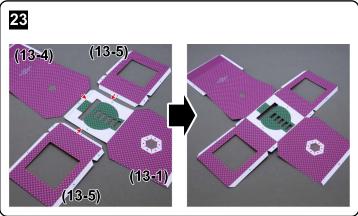

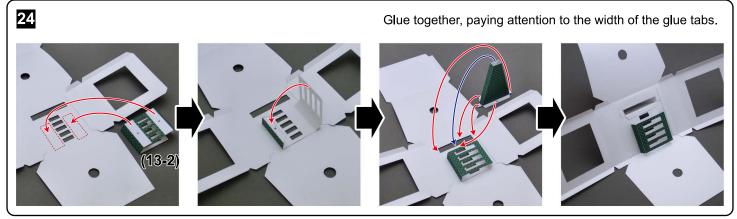

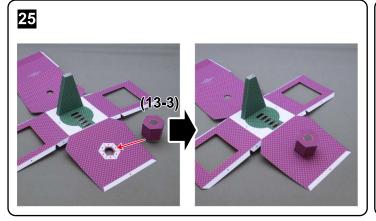

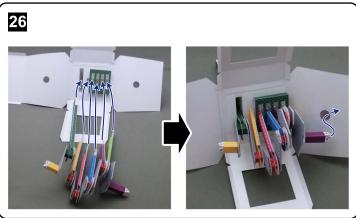

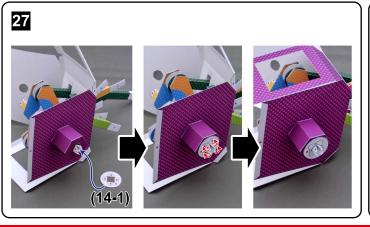

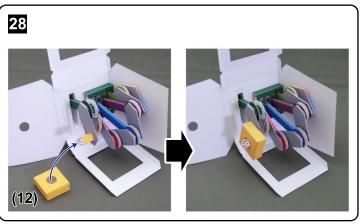

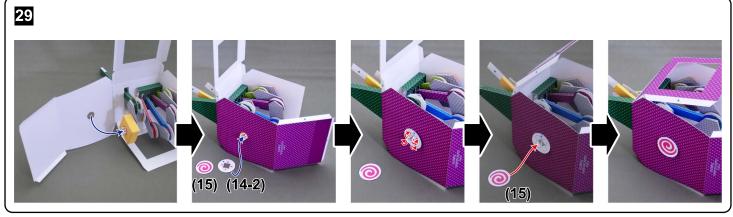

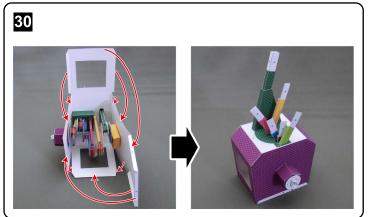

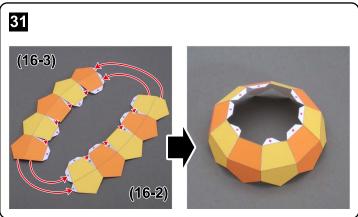

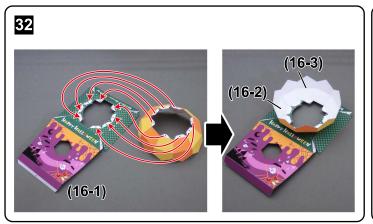

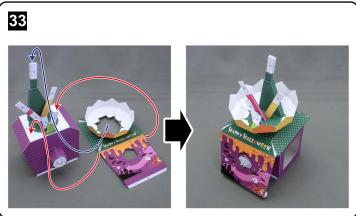

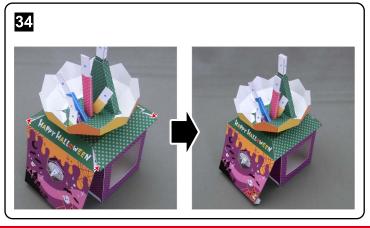

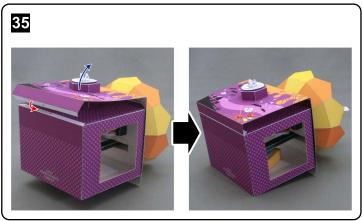

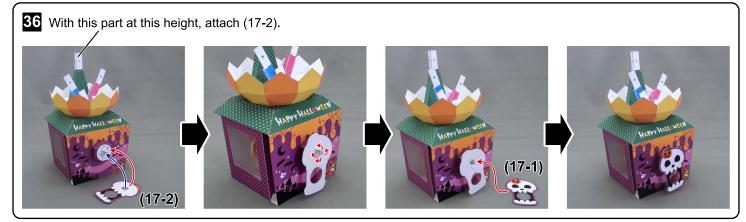

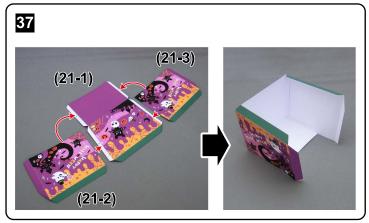

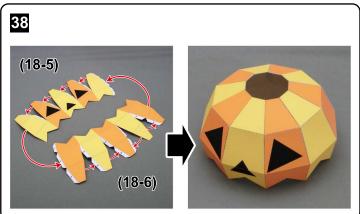

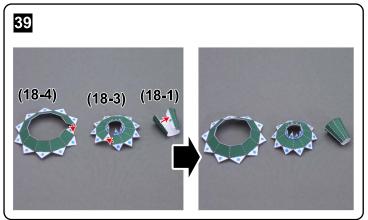

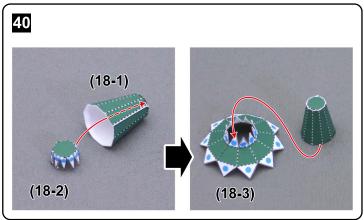

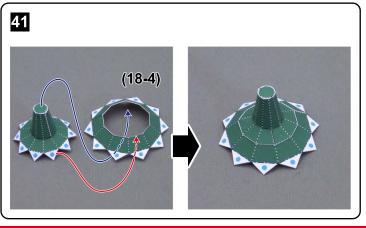

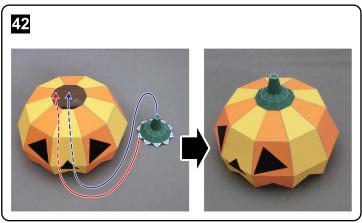

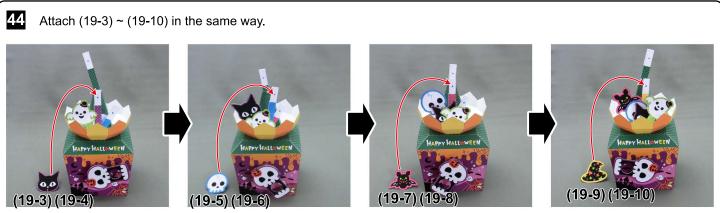

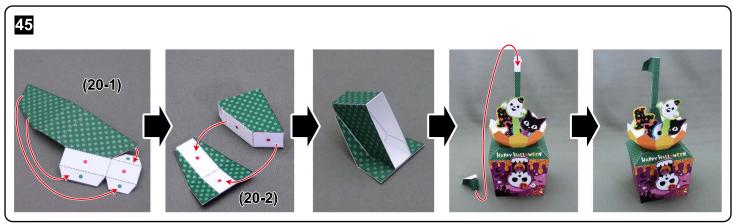

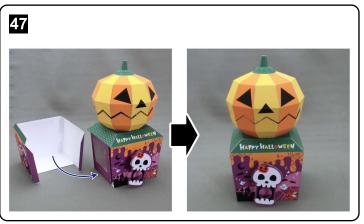

How to play

Put your finger in the hole and turn the handle. It can be turned either left or right. If the handle gets stuck, don't force it. Turn it back the other way a little, and then try again.

If you remove the body you can see how the internal device works.

Having trouble?

If the characters are getting caught on the pumpkin inside, trim their edges with scissors.

The characters may get stuck if they are bent, so straighten them out flat.
