

Motor Sports World***Racing*****Assembly
Instructions****C+D_{Block} BACKGROUND / FOUNDATION**

Please follow these assembly instructions, cross-checking the part numbers on the parts sheet.

We recommend to print out the parts data on A4 inkjet printer paper for paper-craft, sturdy paper or card.

This file provides assembly instructions. Please download the parts data separately.

1 To begin

Tools and materials needed

-Ruler - scissors - blade cutter or "Exacto-knife" - awl or other pointed tool - Embosspen - Transer (for making a folding crease) - Felt pen - Pin set - Glue - Hand towel (for cleaning your fingers) - dictionary or other heavy book (to press the papers flat).

Items of Caution

*Take care when using sharp or pointed objects or when using bladed cutting tools. Place a heavy sheet of paper under the paper you want to cut.

*Use glue and other adhesives only in well-ventilated areas.

*When printing, use a slightly reduced font size. There may be differences in dimensions, depending on the type of printer used.

2 How to assemble

*Follow the working method and markings carefully.

*Cut carefully along the outer line with cutting blade, Exacto-knife or scissors.

One-point Advise

*Cut carefully with cutting blade, Exacto-knife or scissors.

*For folding parts, first use an awl or other pointed tool to make a light crease along the dotted or solid line. This will make the folds straight. Avoid making strong creases, as this will cause the paper to tear.

*As an adhesive, white wood glue is recommended. Avoid over application as this may cause the paper to wrinkle.

*Before beginning assembly, test adhesive amounts on extra paper.

*Occasionally, white spots will be apparent on folds and cuts. Use a marker or pencil to fill in these spots. It is recommended that this be done after each stage of assembly because coloring becomes more difficult once parts are assembled.

Basic working method and markings

Solid lines

Fold along these lines.

The printed surface should be on the outside of the folded shape.

Broken lines

Fold along these lines.

The printed surface should be on the inside of the folded shape.

Dotted lines

Cut along these lines.

Do not fold or cut the parts marked X.

Cut out parts marked with an asterisk(*).

Red dots are the reference positions for gluing surfaces.

Please glue them by aligning the red and red/blue and blue parts if they are marked on the paper.

Please refer to the "Basic working method and markings" symbol chart on Page 2 to assemble each part.

〈Reference photo〉

Please use the ● dots on each component as reference when gluing surfaces.

Connect each of the previously assembled parts in order from 1 - 16 according to the diagram.

- 1 Glue Fencing2 to Course4
- 2 Glue Fencing1 to Fencing3
- 3 Glue Fencing3 to Course2
- 4 Glue Fencing2 to Foundation
- 5 GlueCourse3 to Foundation, Course4
* Glue the part where Course3 and Course4 overlap
- 6 Glue the race course2 and the race course3 to the foundation, the race course4
*Course 1 should be glued to Course 2 where they overlap.
- 7 Glue Course1 to Course2, Course3, Foundation
* Glue the part where Course1 and Course2 overlap.
- 8 Glue Hills to Foundation
- 9 Glue Pits to Asphalt tracks
- 10 Glue Podium to Asphalt tracks
- 11 Glue Tents to Asphalt tracks
- 12 Glue Video screens to Asphalt tracks
- 13 Glue Pylons to Asphalt tracks
- 14 Glue Asphalt tracks to Course3, Hills, Foundation
- 15 Glue Clouds of dust to Course4
- 16 Insert Poles into Foundation

Here are pictures of the completed models. Please refer to them when assembling.
